

VEDANT GUPTA

☎ +919111993090 ✉ vedgupta930@gmail.com 📠 vedant-gupta-755427365 📍 Pune, India

PROFESSIONAL SUMMARY

Motivated Computer Science student with strong foundations in **Data Structures and Algorithms** and full-stack development. **Skilled** in solving complex problems with **efficient algorithms** and optimizing backend workflows. Proficient in writing clean, optimized code focused on performance and system efficiency.

EDUCATION

MIT - World Peace University | Pune
Bachelor of Computer Science and Engineering

Jul 2023 - Present
CGPA : 8.51 / 10.00

Ekayanaa School | Indore
Class 10th

Apr 2021 - Mar 2022
Percentage : 80.20 %

Ekayanaa School | Indore
Class 12th

Apr 2022 - Mar 2023
Percentage : 89 %

PROJECTS

Vacation Rental Booking Platform |  Github
Individual Project

Feb 2026 - Mar 2026

- Built a **full-stack rental platform** supporting **30+ property listings** with secure JWT-based authentication.
 - Developed a **booking system with real-time availability tracking**, handling **15 concurrent users** during testing.
 - Designed and integrated **RESTful APIs** for efficient data exchange between frontend and backend.
 - Created a **responsive UI**, improving usability across devices and reducing navigation steps by **20%**.
 - Structured MongoDB schemas to manage **100+ booking records** with consistent performance.
- Technologies / Tools Used** : React, Node.js, Express, MongoDB, Tailwind CSS

Finance Tracker |  Github
Individual Project

Jan 2025 - Feb 2025

- **Engineered** a **relational database schema (5-7 tables)** for secure financial data management.
 - **Implemented optimized CRUD operations** for **100+ transaction records** with reliable performance.
 - **Developed stored procedures** to automate monthly reports, reducing manual effort by **30-40%**.
 - **Utilized database triggers** for real-time balance updates, ensuring **100% data consistency**.
 - **Optimized complex SQL queries**, enhancing data retrieval speed by **20-25%**.
- Technologies / Tools Used** : MySQL, SQL, Python, Relational Database Design, Procedures, Triggers, Query Optimization

AI Resume Analyzer |  Github
Individual Project

Mar 2026

- Built an **AI-based resume analysis system** to evaluate candidate profiles automatically.
 - Implemented **NLP techniques for keyword extraction and scoring**, analyzing **50+ resumes during testing**.
 - Developed **modular parsing system** to extract structured data (skills, education, experience) efficiently.
 - Designed a **clean UI with optimized backend processing**, reducing response time by **~20%**.
 - Improved evaluation accuracy through **text preprocessing and basic model tuning (~10-15% improvement)**.
- Technologies / Tools Used** : Python, Natural Language Processing, Scikit-learn, Pandas, NumPy, Regular Expressions

SKILLS

Databases :	MySQL, MongoDB
Frameworks Libraries :	React, Node.js, Express.js
Languages :	English, Hindi
Programming Languages :	Python, C, C++, SQL, JavaScript
Soft Skills :	Communication, Teamwork, Problem Solving, Critical Thinking
Tools Platforms :	VS Code, MySQL Workbench, Git, GitHub, Postman
